

Pharmaceutical Calculations

Context for workshop

You may have had a shot at solving pharmaceutical calculations which are relevant for formulation/development.

Objectives

At the end of this workshop, you should be able to tackle the following types of calculations:

- Body cavity delivery systems
- Clinical calculations
- Buffer solutions
- Manipulating pharmaceutical formulations

Instructions

- 8 calc scenarios
 - Body cavity calcs (2 questions)
 - Clinical calcs (2 questions)
 - Buffer solutions (2 questions)
 - Pharmaceutical formulations (2 questions)
- As a group, solve each scenario and present your steps to the class.
